<u>INTRODUCTION TO THE PROJECT</u>

TITLE:

The title of our website is CAMARADERIE which means mutual trust and friendship among people As same as our motto behind building this website is to bring world closer and create a community online like family to create a new camaraderie.

PROBLEM STATEMENT:

In this world with population of trillions, people are still alone everyone has something that they want to share and talk about that they can not share with there knowns because of the fear of judgement and insecurity This platform provides a space for people to share their deepest thoughts and questions without sharing your real identity ,without any fear of judgement and find people who can relate understand and can help you to find answers.

SOFTWARE AND HARDWARE REQUIREMENT SPECIFICATION:

<u>Platform Used</u>: Visual Studio Code , Eclipse

<u>Technologies Used:</u>

*Frontend :* HTML , CSS , Bootstrap 4 , JQuery , Angular

Backend : Mongodb , Node JS , JavaScript

DESCRIPTION:

Our mission is to help the world to face their problems. A vast amount of the knowledge that would be valuable to many people is currently only available to a few or either locked in people's heads, or only accessible to select groups. We want to connect the people who have knowledge to the people who need it, to bring together people with different perspectives so they can understand each other better, and to empower everyone to share their knowledge for the benefit of the rest of the world.

to the people who need it, to bring together people with different perspectives so they can understand each other better, and to empower everyone to share their knowledge for the benefit of the rest of the world.
